Learning Outcomes

Outcome Number	Description
01	Comprehensive understanding of the nature and operations of European and, more widely, international financial markets and understand the strategies of the main European firms and banks, and the nature of international risks.
02	Develop a working practical knowledge of financial and risk management tools used in international business.
03	Be able to apply theory to solve international cases; acquire and use data to solve complex issues; and communicate and work effectively in a team.

Learning, Teaching and Assessment Strategy

This module is part of the Study Abroad programme and is taught on a week block basis at ESc Toulouse. Teaching methods will be a mixture of online lectures, discussion, online company visits and online visiting speakers, and private study. Online Tutorials will be used to reinforce the taught component and formative assessments will allow for monitoring progress. These will be supplemented by web-based learning and self-directed learning to support each topic will take place within the directed study time.

Formative feedback is provided in the tutorials and lectures. The Examination for this module will take place on the final day of teaching.

Mode of Assessment

Type	Method	Description	Weighting
Summative	Examination - Open Book	Open Book Examination (2 Hours)	100%
